

# **RESULTS OF THE RAPID ASSESSMENT OF COMMUNITIES AND LOCAL NGOs. UKRAINE**

June 2023

34 NGOs of Ukraine took part in the survey. That is 68% of the total number of NGOs and community organizations that work in the field of HIV/TB in Ukraine.

The purpose of the operational survey: to identify the existing needs of groups vulnerable to HIV and to assess the capacity of NGOs to develop/improve new areas of assistance in the context of martial law.

To conduct the study, the method of online survey of organizations using the Google Forms web application was used.
